Since I've talked to you you're always on my mind it's like I've got a new best friend and I can't think of anything I'd rather do.

Backing out because you've walked away backing out because it's hard to say words like that tend to bother me.

You know I want to kiss you but I cannot find the time you know I want to miss you but your not mine.

I'm losing my mind what would I say to you? I don't even know your name and if I tried what would you say to me? I don't even know your name but I'd really like to know!

Although I'm in despair I saw you standing there that's when I started to stare I couldn't hold out longer than I needed to

I'm losing my mind!
