My sneakers more cleaner than yours more meaner
more cleaner
Than yours I got it mastered and my car go faster 85
an hour I'm
About to take them backwards

Yea now that's back to the essence the freshest
Prince that's in your presence the uniform on
backwards
The f and f eleven it's a laster went from a thrower to a
crasher
(ooh) now while that's flowing right past ya let me take
a second
To add up all the factors a-trak on the track and lupe is
the rapper
Man about town crown member or swagger supreme
world attention
Getting glistened and forever resistance to anything
non pimping
Or wacker I'm much flyer united I'm nasa I'm much
higher not a puffer
I'm a passer not a rusher or a tackler I ain't gotta cuff
her or tag her
Like I'm a graph or harraser I grind should be on the
cover of thraser
Chilling with the cover of king yameen

My sneakers more cleaner than yours more meaner
more cleaner
Than yours I got it mastered and my car go faster 85
an hour I'm
About to take them backwards

But take a second you need to breathe
Gimme a minute I need to breathe
Excuse me man I can't see cause you in my way

So I'm on it like I own it, it sounds like it don it
I do and do to the fact that I'm that I'm the one to they
openent
But they don't want it turn this flyness into bird flue and
serve you

A nice pot of bird stew I'm breaking down my bread like
I'm making bird
Food and I be in the stu like I'm a bird to but I just
fly like a bird do I doo doo
On the birds man I'm high enough to do though I'm
sitting
on the wires admiring
The view I can still relate to the tires and the shoes
dropping shows for they soul
Passions***(patches)*** for they inner tools***
(inner tubes)-relating to the tire like he mentions
before*** and I run flat while your running your trap I
come
Through take your cheddar take your fedder and the
blue then leave behind a
Letter I'm adressing it to you,
you need to build it better for the veterans salute cause

My sneakers more cleaner than yours more meaner
more cleaner
Than yours I got it mastered and my car go faster 85
an hour I'm
About to take them backwards

But take a second you need to breathe
Gimme a minute I need to breathe
Excuse me man I can't see cause you in my way
