Fuck a P.O,

Been gettin' trippy since I was born and I ain't dead yet.  
Fuck a P.O,

My main partner unlike parol,  
He don't give a fuck every night we roll  
Big blunts, big guns, that first motherfucker don't  
like to go  
Curfew, fuck nine a clock, you can't see the time on  
this shiny watch  
Matter of fact is time to rock and it look like my time is  
stuck  
So froze and I'm so cold, slow it down I'm so  
throw  
Oh, oh, those POs we're popping up any time of day  
Violate, that's 90 days, violate, this night we spray  
Even one is not a good look, matter of fact, give a  
good look.  
Give money, fuck a piss test, leave the club and I leave  
more wet,  
You should keep your bitch in check for I drop my top  
while she give me neck.  
Destroy with that iron like a heat boy with that lion  
Ain't say that I'm lying, popping guns anywhere  
I'm flying.

Fuck a P.O,  
Fuck a piss test.  
Fuck a P.O,  
Fuck a piss test.  
Fuck a P.O,

Fuck a piss test.  
Been gettin' trippy since I was born and I ain't dead yet.  
Fuck a P.O,  
Fuck a piss test.  
Fuck a P.O,

Weed, roof, LSD, even got that teen and ivory  
It feels for the feels, sleeping pills for nighty nighty  
Her vagina's tidy, I lick all over it, all over the night  
climb inside in,  
Shit, I'm smoking so poking, I'm flocking out  
my body  
Watch her, kiss her, lick her the liquor  
This liquor I'm slizzard, my nigger, my life is like  
basketball,  
Run, queue and steal  
And bitch, I'm in here wet, she should come and  
get the steal.  
Trippies, that trippy dose I drop up in my cup  
Think you're dope or that super skunk  
Imma go dope in it, sour days are blowing  
Leopard flag hanging out my pocket while I'm  
floating.

Zombie juicy XTZ be trippy, fuck a piss test  
What you know about that?  
I show you, put it on you.  
Mess it up, come on, brain, don't stop,  
Come trip it though if you ain't know  
What I'm on LSD on the tongue  
Speak of tongues got her freaking off  
So what you know about this? Candy flipping me the  
shit  
Five hundred degrees in here, stay high on the weed,  
fuck them seeds  
That's no release, we're hard timing, we on a  
week smoking kush weed  
Never comparing, never the same, never compare to  
the blood in my veins  
I shouldn't complain smoking that thing  
Never be mine, look at the time  
It took the liquor divine into the price into the sky  
Fuck my PO and your PO, smoke it like it's legal  
Zombies, give me brains, smoke it, join that trippy  
trace.

One thing about have and talk  
These fuckers gotta put it in the brain is pain  
By the pine and I'm out there for millennium,  
Fuck you, never been saying out the medalline,  
Get a hole in your face, get stack up,  
Rolling your brain with the ellipus, skunk up,  
Talking that roll house dope game, spin it to a pin  
Dope sick, have another way, pine this.  
Spinning with these doses, dose more than an up, oh  
shit  
Walk to the most hardest sounding  
Piss in the ocean, a fish in a tank, but a man got  
principle  
Your whole squat and the kitty gotta scream with the  
alpha, down  
Hear them on album, outcoms,  
Even with the best best player at the base with a better  
be BK  
Bare to the bone chips, gotta get an ocean of smoke  
shits  
Fuck a PO, CO, CEO and any other minute of the law  
I'm evil but with an appetite to choke  
Hoping the masses are broken,  
Shout about it ain't real, let's go, kids.
