An inferno fueled by hatred, sparked by thousands of  
lies  
We are spouses at war where there is loathing galore  
Oh the drama, oh the politics  
Is our system compromised by backstabbers and  
pricks?  
Well I guess it's how it has to fucking be

You wanna wage a battle now?  
I'll give you a goddamned war  
Don't bother sending your mercenaries, they're all my  
sons

You wanna burn down all the walls  
Demolish all the memories?  
You wanna ruin everybody's lives cause you're plagued  
with greed?

Cling to your secrets  
Take them to your motherfucking grave  
Harbor your grudges  
Fuck yourself and your misfortunes

Pointing fingers, talking shit  
(The way a bitch would?)  
Inventing more excuses the way a real bitch would

This is the stuff that gets to me  
Why can't we all live happy as a family? (2x)

We've waged this war for twenty fucking years

(Denis)  
This is the stuff that gets to us  
We're turning things we care about into dust

(Eric)  
What's become of our love  
We're blind and lost at sea  
These waves are crashing down  
This feelings got the best of me

Can't you see"

I won't let you take me down  
Believe me when I say it  
These claw marks down my spine are just a short  
reminder of the time  
I can't believe I used to call this my home  
Home is where the heart is  
And this is the heart that you destroyed  
This is my goodbye

We never know what lies ahead but ill make sure  
That you're not included
