"She's got a problem"

I know a girl that should never be alone
I know a girl that should never be alone

shes a danger to herself
and im worried about her health
shes got a problem and shes gonna do something
dumb

I know a girl who you've got to keep an eye on
I know a girl who you've got to keep an eye on

Every time she goes outside she barly gets home alive
shes got a problem and shes gonna do something
dumb

oh yeah (oh yeah)
and i can see the signs

oh yeah (oh yeah)
cause shes only killing time

oh yeah (oh yeah)
and shes not long for this world

shes a danger to herself and im worried about her
heath
shes got a problem and shes gonna do something
dumb

shes got a problem and shes gonna do something
dumb
