Nothing goes on today, she says

all of our running 'round to get away

Yes and it's complicated

some now and some later

one of the girls you have to say

(CHORUS)

And you talk like a stranger

you pray for a change

and they tease you and cool you and love you so  
strange

Oh and she's lonely, she says

out of a face that tells you "take me home"

yes and she keeps on talking

snowblind and sleepwalking

one of the girls you have to say

(CHORUS)

And you talk like a stranger

You talk like a stranger today
