Looked at my window and started to think  
It's an unfairground that I've been living  
Rich stand proud and live happily  
While poor still struggling for money

Some work from morn' till night  
What they receive are just ain't right  
Rich old bastards just havin' a laugh  
Seeing some people hard to survive

Unfairground

It's so hard to feed wives and kids  
When the pay are just enough for one to eat  
Ain't no school for the kids  
No good jobs for the one who ain't fit

Rich old bastards still havin' a laugh  
Ain't got no problem lives ain't tough  
Giving the pay that ain't enough  
While saying it's more than to survive.
