Take a look around and tell me what do you see
All the justice in the society
Live in protection and misery

The way I look it, it's the way that I want
But all the coppers are a bunch of cunts now
This is what we call DEMOCRACY!

(Pre-Chorus)
But I'll be down on the streets
With all the kids tonight
Feeling lots of pride
'Cause we're supposed to have freedom and
We do have a right
To crop our heads and put our boots
On, Alright!

(Chorus)
We are A.C.A.B.
We are the Skinheads army
We're the youth of the working class
We'll make a change, we will make it fast

We are A.C.A.B.
We are the Skinheads army
We're the youth of the working class
We are friends and we're built to last

Fuck all the coppers
Fuck all the teachers
They never cared on the ring of protection
Fuck the coppers, double or take,
They never cared, they're full of shit

The way I look it, it's the way that I want
But all the coppers are a bunch of cunts now
This is what we call DEMOCRACY!

(Pre-Chorus)
