[Mos Def] Love, electricity, shockwave central Pummel
on the motherboard, yes! Push up, overload, legendary
heavy glow Sunshine, thunder roll, keep this on Yes,
the lantern burn, burn that easy And broadcast, so raw
and neatly Thunder roll, sunshine, work it out...
(*Echoes*) [Chorus: 2-D] Overload, overload, overload
Comin' up to the-- Overload, overload, overload Comin'
up to the-- Overload, overload, overload Comin' up to
the-- Overload, overload, overload Comin' up to the--
[2-D] Oh stylo Go forth, blossom in your soul When you
know your heart is light Electric is the love When the
mako flies.. up from the bottom in your eyes Then I
know the twilight skies.. are not so broken hearted..
[Bobby Womack] If it's love is electric It'll be flowing on
the streets Night after night..just to get through the
week Sometimes it's hard...right now [2-D] Sing
yourself out of depression, rise above Always
searching if I know your heart Electric is the love..
[Bobby Womack] [Chorus repeats] There's only one
way Let it pray a little while longer It's got a way of
passing through man and woman In another world, in
another world, in the universe Right now, here's what
we got to do [Chorus repeats while Bobby Womack
continues singing] If its love is electric It'll be flowing
on the streets Night after night..just to get through the
week Sometimes it's hard... That's what I'm talking
about [Mos Def] Love, electricity, shockwave central
Pummel on the motherboard, yes! Push up, overload,
legendary heavy glow Sunshine, thunder roll, keep this
on Yes the lantern burn, burn that easy And broadcast,
so raw and neatly Thunder roll, sunshine, work it
out...(*Echoes) [Bobby Womack] Right now!
