I was dropped on earth, all was written
I feel manipulated, the countdown starts
I've no ID, I lost my name
Who cares, what's your fucking number
I am the 619
Another number in your file
I am the 619
That's the only thing that matter to you
Pawn, that's all I am, they play the game
Whatever they choose, I'm gonna loose
I've no ID, I lost my name
Who cares, what's your fucking number
Millions of followers
Led by a few scroungers
They don't know my face, I'm nobody
Just an SSN, work my ass off
I've no ID, I lost my name
Who cares, what's your fucking number
Go.
