"Pay Day"

We can be true, we can be wrong
Now it's too late we gonna pay for those who
fucked up
We can be true, we can be wrong
You made your choice, we gonna die
You come on earth pleasure seekers
Judgment day is coming today
Universe has the last word
And makes its own rules anyway
They have the choice, we undergo
We're gonna be manipulate till the end of time
They have the choice, we undergo
They have money, we have the dreams
You come on earth pleasure seekers
Ho yeaaah
The darkness and the chaos gonna be now your new
vision of earth
Human beings weren't ready to live all together on
this planet
I tried to resist all your attacks, you never wanted to
see my signs
I am warning you, why do you choose to be extinct
Pay day, too late to run, too late to realize
Your ignorance blazed me
Pay day, be ready to die, be ready to die
Be aware of how fucked you are
We know the end, we're still believing
Don't understand our ignorance trusting the media
We know the end, we're still believing
Stop trusting because they lie to us
You come on earth pleasure seekers
They choose for us, we die because of us
There's something wrong, they say don't
worry, we are reassured
They choose for us, we die because of us
We are a herd of sheep under control.
