Happy days are here again (2X)

This is what I've been waiting
This is what we've been wanting
Happy days are here again
And your life is about to begin

Time has come for us to win
And our love is there to remain
Let's cross all the bridges, ooh - hoo
We'll color all the edges, yeah - heh - heh!
Happy days are here again
And your life is about to begin

I can hear sweet voices
Here and there
Can you feel the magic everywhere
We believe there is love for our romance
Together, let us take life
As it's cost
Things will work out better and better
So don't you worry
About our tomorrow

Forget all the heartaches you've had
Oh, happy days are here again
This is what oh I've been waiting
This is what we've been wanting, ooh - hoh - hoh!
Happy days are here again
And your life is about to begin
Time has come for us to win
And our love is there to remain
Happy days -
(Instrumental)
