Get outta the street right now, you're in the way
The red light has turned to green, I ain't got all day
There ain't no pictures in this book
The dirty pages take a look
If you think your woman is sweet to you
Think about when you're away from her
What you put her through
There ain't no pictures in this book
The dirty pages take a look

Get off of your knees right now, you're looking up my
nose
Girl that ain't gonna cut no ice, Heaven knows
There ain't no pictures in this book
The dirty pages take a look
There ain't no pictures in this book
The dirty pages take a look
