We drove in my car into the night
With you in my arms it just felt right
We talked a lot about the things we could do
And your eyes were sparkling bright

Then one day you started a fight
For no good reason you had no right
I never thought it would be like that
So today, I'm thinking of leaving

Now it's time to leave you
Leave you behind
Now it's time I've made up my mind
I've got a strange kind of feeling
A feeling so true
That it ain't no cure loving you

I put a record on my stereo
I found a photo from a long time ago
Of you and me from way back when
We had fun, so much fun

But then you wake me up from my dream
You're at your friends and won't be coming home
Well I've been thinking about calling you
'Cause today I'm thinking of leaving

Now it's time to leave you
Leave you behind
Now it's time I've made up my mind
I've had this strange kind of feeling
A feeling so true
That it ain't no cure loving you

And I drive to the end of the road
It ain't no cure
You know I tried, but it's taken too long
It ain't no cure

Loving you...
