well I yell
to hell
cuz death
is too much
too death
i yell
and to hell
is enough

SO ON & ON I SCREAM

....the dark whispers are sayin
'eat the shreds of cake
or else ill burn ya!!'
and now
i yell
and i kiss
the hot girl
in the mouth cheek
and flames
are only eternal darkness
of a red floating sea.

.....this is just the beginning.....

.....for the greatest band, and the best song, we
stand upon, the most
enthused, crap, of all one could imagine for many
many years.
as the earth turns around then fades i must stand ill
and farstrucken.
