Could I?  
Could I just find a way?  
I'd find you everyday  
and we could alter time  
But  
I've come to find  
Everyone's gone away  
So this may be the time  
For the perfect crime  
Yes, this is perfect  
(This is!)  
Our Medicine  
(This is!)  
Our time to...

Medicate!  
Here with me,  
Now as we  
Lose ourselves to us and ignore  
That you don't even know my name  
Medicate

Come Day  
You'll say you cannot stay  
What's more I'll feel the same  
It happens every time  
So, I've come to find  
Everyone goes away  
I'm destined to remain  
You were never mine  
So you were perfect

(This is!)  
Our medicine  
(This is!)  
Our time to,  
Medicate,  
Here with me,  
Now as we,  
Lose ourselves to us and ignore  
That you don't even know my name

Medicate

Can you describe what it's like?

I feel nothing

Can you feel this?

Does it sting?

I feel nothing at all

I feel nothing at all

I feel nothing at all

(Can you tell me how it feels?)

I feel nothing at all

(Can we pretend this is real?)

I feel nothing

Medicate,

Here with me,

Now as we,

Lose ourselves to us and ignore

That you don't even know my name

Medicate

Here with me,

Now as we,

Lose ourselves to us and ignore

That you don't even know my name

Medicate

Here with me,

Now as we,

Lose ourselves to us and ignore

That you don't even know my name

Oh!

You don't even know my name

You don't even know my name

Oh!

Medicate!
