Walked into hourly made, horrible sounds
I can still hear them today... (Faintly they seem...)
Beautiful now, though they are past my love

Still each time I always meant,
Every word, every one.
Though in time, they finally bent
Every word, every one, every word...

I will wait for you
She said, endlessly
I will wake for you
So spoke, misery

I would turn to you but found, my empty home
The radio told me to stay, (as it burned bright) I sang
alone
"You will not vex my love..."

Still each time, I always meant
Every word, every one
Though in time, they finally bent
Every word, every one, every word

I will wait for you
She said, endlessly
I will wake for you
So spoke, misery

Oh...
I have been waiting for you...
Bite in as you talk me, soon
I have come through and leave you
Alive and in love...

I will wait for you...
I will wake for you...
I will wait for you...

I will wait...

(I will wait...)

I will wake for you
(I will wait...)
She said, (She said...) endlessly

I will wake for you
(I will wait...)
So spoke, misery
I will wait for you, wait for you...
Endlessly
I will wait for you
So spoke, so spoke
Misery

And I will bite
Straight through...
As I wait for you
Dear... Endlessly
