

A.F.I. "Smile"

Overwhelmed with deep repulsion
For sights seen so commonly
Of post-morality
Now I have come to be the walking enmity

From what I've seen I hate humanity
Assimilate into a culture
Rot with repulsion
I'll write the world a brand new song
Look upon your bleak creation

But is it truly me
That's come to be the human blasphemy?

I will write my first love song
And in the burning light
I'll set the world on fire

And I will feel warmth
Hide your eyes
I'll end the world tonight
In heaven in the lies
Believe relieve

I'll end the world tonight
Overwhelmed with deep
repulsion
For sights seen so commonly
Now I have come to be the walking enmity
For humanity the human blasphemy
