Spoken It's weird, it's really interesting. We're lucky it happened actually. Your's lucky i don't knock your fucking head in. There's no need to get violent is there, and try not to swear so much please for the sake of this film. You can always put in a fucking bleep can't ya!? Yes, yes, that's not the point though. No, no, that's not the point is, the point is how come you think you can interfere with the way we talk, and not interfere when the van's broken down!? Answer that and stay fashionable! Come on, let's keep cool now. Fuck off!

Right now we've got a reason to live
But it's got nothing to do with you.
We've got a lot of places we're gonna go,
A lot of things that we're gonna do.
In your world we may be no one,
But what makes you think you're someone?
We have got just what we need and we don't need you.
No one, no one, no one, no one.
I can tell where our future lies,
And you can tell we've got nothing to hide.
The way things seem to me right now,
Everything will be just fine.
We're going to do it all our way.
We don't need you to darken our day.
We've never given up before
And this stand won't be our first time.
No one, no one, no one, no one.
No one's gonna tell me,
I'm gonna do it my way.
No one's gonna tell me how to get it done.
No one, no one.
No one's gonna tell me now!
No one's gonna tell me,
I'm gonna do it my way.
No one's gonna tell me how to get it done. (x5)
Get it done!
