I know you are there
I feel your touch
You know I care
You know so much
You know who I am
There is no pretend
Come stay with me
Right through the end
I am falling again (repeats)
Deep inside I can't stop this feeling
Deep inside
Deep inside
I know you are there
I feel your touch
You know I care
You know so much
You know who I am
There is no pretend
Come stay with me
Right through the end
I am falling again (repeats)

Thanks to feel
