Verse: Wondering why these people are following me  
Like I'm a threat;  
Their one eye closed thinking I know more than I  
actually do.

Chorus: What I've been through will not leak truth  
But my memories will not fade  
And now I must know the rest of the secrets they hide  
Or they'll bother me till I die.

Verse: Since my youth  
The secrets they're searching for have been revealed  
To me from the shadows from the realm of the unseen  
world.

(Repeat chorus)

Bridge: The light shot my eyes;  
Saw shadows inside  
Dimension where time disappears.  
It opened my mind.  
Neurons inside  
Connect me to everything.
