Remember when we said goodbye

To give each other time

We said that we should live apart

Only for a while

Now it feels like it's all I waited for

Chorus

To love once again,

I'd do anything,

oh yeah

But I know that we can

make it last forever

I may be lost I may be blind

but I am not a child

I know that we can make it right

if only for a while

It's not that easy please believe me

I don't wanna let you go

Chorus

To love once again,

I'd do anything,

oh yeah

And I hope the time will come
When we will find peace of mind
Now I'm waiting for a sign
that leads me closer
to love
again
To love once again

Chorus 2x

To love once again
I'd do anything, oh yeah,
And I hope the time will come,
when we will find
peace of mind
