You've got your big girls
Now you have your young one too
Wonder if someday I can have them
The way I once had you

I remember your crazy remarks
We'd get drunk and go out after dark
Searching for someone we could take home

chorus:

You don't wanna be alone
You don't wanna see the sun go down
You don't wanna open the door
And see her go
One step and tomorrow comes
Two steps and she's off with someone
Three steps and it's all you know
You'll be gone, she'll be gone

So what are you gonna do about me?
I'll be there when you have no one else
* Spot in the ocean in the south's holy land
I'll be there, be your friend

Hold on strong, don't let go
There'll never be no one to take your place
So don't you wanna reach out and take my hand

(chorus) x 2

One step and tomorrow comes
Two steps and she's off with someone
Three steps and it's all you know
You'll be gone, she'll be gone
