Vs 1

On my way to safer places
Found a way to let it go
No one knew the life I raced in
Found someone who wants to know

And I can't believe the need for flight still finds me
Try resist your kindness it reminds me of the things
I don't wanna see

Chorus

And my soul flips over
In a way I can't control
And the beauty is that I don't want to
And my head is alive with all that could be in this life
And my fear of losing all has left me
By your side, by your side

Vs 2

Didn't know that I was looking
But it found me anyway
Would you believe this makes me happy
Life is sweeter every day

And I can't believe the need for flight still finds me
Try resist your kindness it reminds me of the things
I don't wanna see

Chorus
