Vs 1

I know what youâ€™re thinking
Iâ€™ve been down that way
Nothing to hold onto
today
Your best foot is put forward
your look with open eyes
the best you are expected
but surprise, surprise

Chorus

Things look better in the morning light
if you can get through the night
thereâ€™s a second chance when the morning comes
so hold on, hold on

Vs 2

I know what youâ€™ve been through
you fall and stand and fall
the life you were expecting
is no life at all
Your sun is still eclipsing
no matter how you try
your open eyes are shifting
you cry

Chorus
