Vs 1

It's not that hard for you to lose it all
It's not that hard to bring it back
But in the trying you know we win it all
We can, we can
And in my life sometimes I look too hard
And then you'll find that I go blind
But in the trying you know I win it all I can

Chorus

Keep it going let it linger on
And then I know I will be fine
Keep it flowing love me all my life
And then I know that I will shine

Vs 2

And if you see me walking in a daze
I'm not so lost that I can't find
The perfect way to help you
Feel okay
I try, I try

Chorus

I'll shine, I'll shine, I'll shine, I'll shine yeah
You know its not that hard to lose it all
You know its not that hard

Chorus
