"Walk Away"

Visit "[Walk Away](#)" on MotoLyrics.com

Verse 1

I've been wondering what I should do
should I let you know
what I feel about you
do I take a chance and let you know
if only I could ask you first which way to go

Chorus

If I told you that I loved you would you walk away
and if I told you that I need you would you leave that
day
if I said I just can't live without you
would you stay, would you stay
or would you run away, away

Verse 2

What we have now is quite good too but
your friendship is not all, all I want from you
if I told you this I'm quite sure
I would probably never ever
see you anymore

Chorus

Verse 3

Could I compromise my liberty
watered down emotion, could that be me
intense love disguised as friendship
if I could not do that for you oh
would you end this?

Chorus
