[chorus]
When I hussle
baby I be thinking of you
im always on the grind dont spend a lot of time like we
used to do
Now be out on these streets cuz you know we got to eat
and you know that's the truth
now no matter my hustle im coming home to you
shawty im coming home to you.

Yeh Ima hustler yeh but baby girl I wanna fuck with you
you the type to make the thug nigga turn lub a dub
Mami let me tell you
I aint nothing like these other scrubs,
H-u-e-y
cow boy he fly
got money to the hiz-eye
thats why I fly geez eye if any brother tell u he do you
better he lie
No I aint Nelly but could make you holler e eye when
you
f-u-c-k-i-n-g in the treetop
bet you will see its best then ever when we ride count
you a summer wardrobe come spring time
the more that we around gratify me love you but you
should now theres one main thing

[chorus]
When I hussle
baby I be thinking of you
im always on the grind dont spend a lot of time like we
used to do
Now be out on these streets cuz you know we got to eat
and you know that's the truth
now no matter my hustle im coming home to you

shawty im coming home to you.

Baby girl you be my queen the only thing that make a
thug smile in his dreams
and make me feel that I aint as thug as I seem
When we make love
have me weak at the knees
the only female that could do what she please
But say it aint tricking when im giving her g's
car weather im hurt or im safe in the streets
I'll tell you mami don't worry im safe with the heat
Now come a little closer move your waist to the beat
In the winter on the carpet for heat when you sleep
theres no other couple that's fucking with we the more
im around gratify me to love you
theres one thing to know your next

[chorus]

When I hussle
baby I be thinking of you
im always on the grind dont spend a lot of time like we
used to do
Now be out on these streets cuz you know we got to eat
and you know that's the truth
now no matter my hustle im coming home to you
shawty im coming home to you.

Ive been all around the world before
but I know your the one for me
just stay good you'll see
I don't want to have to run these streets no more
For now girl its ride or die baby ima get you right

[chorus]

When I hussle
baby I be thinking of you
im always on the grind dont spend a lot of time like we
used to do
Now be out on these streets cuz you know we got to eat
and you know that's the truth
now no matter my hustle im coming home to you
