Please, you have to help me
This is not my true face
If you could see my soul,
As i have seen my soul
I could show it to you
It's rotten
It's poison
Help me please

Please, give me a fucking excuse
I beg for just one reason to give you regret
Regret

Are you with me or are you on your own?
It's time to choose your side,
So choose your side

Are you with me or are you on your own?
It's time to choose your side,
So choose your fucking side

Could be the end of the world
I'd still be laid here on my own, wasting my life away

Hear me now
Get off your knees
Nothing changes when you pray
I'm the closest thing to a god you'll ever know
Get of your knees

Open your eyes
I'll regret, never again
And i stand above you
[x2]

And i can't feel this pain anymore
And i can't carry on this way
I'm hiding behind false eyes

Could be the end of the world
I'd still be laid here on my own wasting my life away

Over and over
[x2]

Fuckin' out.
Fuck
