I'm so done with it I won't go back again and
I'm okay with this, that I'll be on my own
Until the day i die which shouldn't be that long
So I'll just do what I do and make the most of it

I won't fall down again
My heart's now dead and gone
And I'm still breathing
I made it out alive

Oh fuck this is fun I just can't believe I didn't find this
before
To just indulge even if it kills me
Who gives a fuck if we die
Another Bottle Down!
You should really try it sometime
Cos it feels to good

Without a care if a heart gets broken
You'll all learn in the end that there's a better way
Baby move in closer, you couldn't hurt me if you tried

I won't fall down again
My heart's now dead and gone
And I'm still breathing
I made it out alive

Take a seat my dear
Make yourself comfortable this could take a while
Crack another, dear
I can't see now and I wouldn't change a thing
Life should burn with such a fucking flame
If not you've only got yourself to blame
