I've been to the Himalayas, and the pyramids at Giz(a)
Watched a Bosnian sunrise, that I wished you could
have seen
I've crossed the Grand Canyon, and the Sahara with
ease
Felt a Nairobi wind like your soft kiss on my cheek

My children have you learned about some of the places
I've been
Though I was gone for so much of your life, I'm here
now to help you to win

I'll be your hero, the one that looks out for you
I'll be your hero
I'll be your hero, the one that will fight for you
I'll be your hero

I saw Eagles in Saudi, at the heart of a Desert Storm
I was just 22 and I didn't have a clue that one day you
would all be born
I went to the Soviet Union when the Iron Curtain was
raised
And I got your mom a ring in Germany, she wore for all
of our days

My children do you understand some of the things that
I've done
And for the rest of my life, I'll be a dad that's number
one

I'll be your hero, the one that looks out for you
I'll be your hero
I'll be your hero, to stand in the gap with you
I'll be your hero
So if the storm comes and you just need a way through
I'll be your Hero

On the night of 9-11, at the news of the attack
You flew off to the scene of the crime and I didn't know
when you'd be back
When you went to Afghanistan, I thought maybe we

were through
But I wanted you to have someone to come back home
to
And I made it back home to you

On a river of darkness, that winds through the sky
In a gray metal aircraft, we fly by the night
While you are in school, making the grade
I think of your faces, may God keep you safe

I'll be your hero, the one that looks out for you
I'll be your hero, the one that holds the home for you
I'll be your hero, the one that will fight for you
I'll be your hero, that takes care of the kids for you
I'll be your hero, to stand in the gap with you
I'll be your hero, we know just what to do
If the storm comes and you just need a way through
I'll be your hero (x2)
And if you just need someone that you can turn too
I'll be your hero
