Waves wash over lonely tracks in the sand  
without pressure, they disappear...  
The depth deep in your eyes give me the sign  
that we've lead each other to another...

Oceanview of the heart. Casting out all doubt  
and frustration...  
An oceanview of the love reminds us just how  
true this oceanview of my heart can only  
be for you...

Waves smooth and mold the hardest rocks  
forcefully or gently and kind, it soothes with time...  
You're near, a new haven once again. My mind can  
mend, try and trust this...

Oceanview of the heart. Casting out all doubt and  
frustration. An oceanview of love, reminds us just how  
true  
this oceanview of my heart is just for you...  
An Oceanview of the heart, an oceanview of my heart  
An oceanview of the heart. Casting out all doubt  
and frustration. An oceanview of love, reminds us  
just how true this oceanview of my heart can only be  
for you...
