Baby girl you got the whole world screaming  
Giving it up for you  
You got the party people fiending

Bump it to the roof from the left side to the right side  
And straight to the back  
Ain't nothing going on here but a dirty money track

Got the party people waving  
Their hands and doing the rodeo  
Aaliyah, why don't you kick it, kick the flow

I came to spread my love  
To the fans across the world  
Reach out to you  
Touch the hearts of boys and girls

I came to spread my love  
To the fans across the world  
Reach out to you  
Touch the hearts of boys and girls

I came to spread my love  
To the fans across the world  
Reach out to you  
Touch the hearts of boys and girls

Came to spread my love
