Only Wind

Verse 1:

The sun was setting down and so did my brain
heard a sound of a distant kiss and breath in the pain
will go to waste will go to end

Chorus:

I wish I could fly, fly upon your mind
Your life smells like death I wish I could feel
How lonely I feel inside

Verse 2:

I have to keep my trace gotta keep my faith
Behind me there's no living space no winds are blowing
will go to waste will go to end

Chorus:

I wish I could fly, fly upon your mind
Your life smells like death I wish I could feel
how lonely I feel inside

Bridge:

I'll walk I'll feed on light
I'll love I'll feed on pain and I say

Chorus:

I wish I could fly, fly upon your mind
your life smell like death I wish I could feel
