I'm not too young and I'm not too old
Listen up everybody this ain't Aaron's party
Part two and up now come and show me body
Girl what you gonna do come and talk
To me in the backseat, Baby Backstreet
We can surf boardsurf the net, Yeah
And better yet we can make a little bet
If we get together yo it's gonna be the bomb
Ah hit me up baby AaronCarter.com
See when it comes to girls I'm not too young
Ah me? Baby face, back upon the seat
But when I get in trouble yo I'm not too old
I pull my cap way down and say I'm eleven years old
Thats how we roll

****CHORUS****

Get your hands up now
Let the music take control, This is how we roll
I'm not too young and I'm not too old
Here we go!
Throw your hands up now
Let the music take control, This is how we roll
I'm not too young and I'm too old

It's the A to the A to the R O N
I'm all grown up now, run and tell your friend
It's all sewn up now, were do i begin ?
Don't even playa hate tryin to say I look 10
I'm tellin you again, I'll wind up in the video,
Try n'catch me in the studio
Thats my life bro!
It's in my blood, It ain't my fault.
You wanna step to me?
We can take it to the asfalt.
Shoot some hoops, kid, Slam dunk the funk
Battle on the roller blades you callin me a punk?
Bring on the skateboards or the BMX
Show me what you got
Is that all? Please next..
I want the poetry, wheres the concentration?
Don't even talk about the Sony Play Station

I'll make it happen if it seems that you want
Aaron Carter got you open, dont front, dont front
Lets roll

****CHORUS****

Throw your hands up now, let the music take control
This is how we roll
I'm not too young and I'm too old
A here we go!
Throw your hands up now, let the music take control
This is how we roll
I'm not too young and I'm too old

He's steppin out with the older boys,
Cover up your ears cause we makin mad noise
He's steppin out with the younger girls,
Cover up your eyes couse we rock the world (Repete)

So when it come to takin all the gurlz for a cruz in my
ride
All I need is ta ell um Hello, Hello
I'm not too young (do do do do)
Don't tell me I'm wrong (do do do do)
Switch it off yo, hit me on my pager
A real teenager with a fake beard battin in the majors
Thats how we roll
And when it suits me
I'm anywhere between 12 and 18 years old
Here we go

****Chorus****

Throw your hands up now, let the music take control
This is how we roll
I'm not too young and I'm too old
A here we go!
Throw your hands up now, let the music take control
This is how we roll
I'm not too young and I'm too old
(cause we rock the world!)
Throw your hands up now, let the music take control
This is how we roll
I'm not too young and I'm too old
(cause we rock the world!)
Throw your hands up now, let the music take control
This is how we roll
I'm not too young and I'm too old
