I see you dancin' all across the room  
You know it's just a little thing to do  
I like the way you turn around take your time  
And i can tonight wanna make you mine  
I know you want me baby  
So let me say your mine

Girl i'm looking at you and your looking at me  
We out here on the floor tell me what's it gonna be  
We in the spotlight shinning so bright  
Come on come on  
Wontcha be my girl my girl my girl  
Baby wontcha be my girl my girl my girl (my girl)

I look at ya standing here alone  
If you wanna leave i got a place to go  
I like the way you turn around take your time  
And i can tonight wanna make you mine  
I know you want me baby  
So let me say your mine

Girl i'm looking at you and your looking at me  
We out here on the floor tell me what's it gonna be  
We in the spotlight shinning so bright  
Come on come on  
Wontcha be my girl my girl my girl  
Baby wontcha be my girl my girl my girl

See a girl like you is so hard to find  
I can't wait till i make you mine  
So girl let's stop wasting time  
Come on come on

Girl i'm looking at you and your looking at me  
We out here on the floor tell me what's it gonna be  
We in the spotlight shinning so bright  
Come on come on  
Wontcha be my girl my girl my girl  
Baby wontcha be my girl my girl my girl
