You have, you have, you have email

Ain't no doubt about it
I can't wait to get home to you
(I gotta get home, yeah, uh, uh, come on)
Connected with my baby
Just jammin' online with you
(Online, online, online)

Here in my room we are as one
(Together you and me, together you and me)
Hours connect as we switch on
(Switch on)

She's my best kept secret
My internet girl
(My internet girl)
She's my one and only
And I ain't tellin' the world
(My internet girl)

She's my best kept secret
Hooked up all night with that girl
(My internet girl)
She's my one and only, my internet girl
(My internet girl)

My internet girl, my internet girl
(Internet)

Shufflin' through my Windows
Gotta find my way back to you
(I gotta find a way, gotta find a way)
(I gotta find a way, gotta find a way)
You left me mail in the inbox
Thinkin' about what we should do
(I will type again girlfriend)
(So tell me what you do, tell me what you wanna do)

You left me the password to your heart
(Yeah, that's it, I got it)
No lookin' back we clicked from the start

(Clicked)
I wanna let you know she's mine

She's my best kept secret
My internet girl
(My internet girl)
She's my one and only
And I ain't tellin' the world
(My internet girl)

She's my best kept secret
Hooked up all night with that girl
(My internet girl)
She's my one and only, my internet girl
(My internet girl)

She's my best kept secret
My internet girl
(My internet girl)
She's my one and only
And I ain't tellin' the world
(My internet girl)

She's my best kept secret
Hooked up all night with that girl
(My internet girl)
She's my one and only, my internet girl
(My internet girl)

She's my best kept secret
My internet girl
(My internet girl)
She's my one and only
