[intro]

[verse:]

smithing the metal from fire and steel
warriors will cry when the truth will reveal
the blade will leave deep purple scars on your face
no stairway to heaven a zeppelin in flames

the power and glory will tell the whole story
the poison is brewed, your brain will be screwed
you are the prisoner, we put you in chains
we take all you got until nothing remains

[bridge:]

aah, see us riding on a ray of light
aah, we're dividing your days from the night

[chorus:]

all hail to the gods of folk, better take a bow
all hail to the gods of folk, better shout it out

[verse:]

saddle your horse as we ship to your shores
we're fighting the battle with strings made of metal
thunder and lightning will darken the earth
surrender yourself for all that it's worth

[bridge]

[chorus 2x]

la la lalalalala la la lalaaaaa
la la lalalalala la la lalaaaaa
la la lalalalala la la lalaaaaa
