All your life's been sick and tired
Painted skin so pale
All those you have lifted up
It's hard to watch them fail
Symptom of
Symptom of
Symptom of yourself
Truth be told
Truth be told
Just a victim now

Someday you'll see you are a fool
You make me waste my breath it's true... I'm not
Impressed

No Excuse for you

Guard the truth and hide the lies
Call yourself a friend
Don't expect loyalty
That you can't comprehend
Victim of
Victim of
Victim of yourself
Truth be told
Truth be told
Just a symptom now
You make me waste my breath
It's true... that time will prove

Drag me in and out and down until it's over
Drag me down
