I heard today that you were gone  
I had to stop and sing along  
The song they played to say goodbye  
A song that gave, gave me back life

[Chorus]

You'll never fade  
The words you gave  
My life you saved  
Your name was layne  
And on that day a child was born  
To someone who you helped along  
And helped see through his darkest times  
Because of you, this child she is mine

[Chorus]

[Bridge]

The words you said, you made me feel like they were  
all  
For me  
The words you said, they will always be a part of me  
The words you said, you made me feel like I was not  
Alone  
The words you said, you gave me all the strength to  
Carry on

[Chorus (altered)]

So to me you'll never fade  
Your life you gave  
My life you saved  
Your name was layne
