[Chorus: Juvenile]

She got a loose booty, she got a loose booty  
Pay attention to how it shake, she got a loose booty  
She got a loose booty, she got a loose booty  
Pay attention to how it shake, she got a loose booty

[Juvenile]

I ain't tryin to be stuck all in the corner and locked up  
Tongue-kissin a hoe a nigga know she a doctor  
Hoe can make a nigga think she a queen  
She standin there smellin like potpourri I bet she stank  
in them jeans  
Need to shake it, wash it, rinse it, squeeze it and  
douche it  
Call a time-out, freeze AT EASE that pussy  
They comin out the woodworks, ain't no pride  
They don't get tired, play they vibe and they'll shake it  
'til they foot hurt  
Say she dressin for time, she got a lot of that  
She ain't no nickel and dime, she got a dollar back  
When she step her ass bounce two times  
The wobble wobble make it hard for her to walk straight  
lines  
Gotta add the soldiers on when you standin behind her  
You might get stuck in there and need a camera to find  
her  
Gotta hold ON to them handlebars, cause you don't  
want that broad  
goin tellin your dawgs you got handled boy!

[Chorus] - 2X

[Eightball]

You make a nigga wanna pay for that pussy hoe  
Stand it up and make you get up on your tiptoes  
Play with love man, kiss it baby watch him grow  
Don't run your mouth about it, momma try to keep it low  
Let's get a room somewhere deep on the outskirts  
Give me head 'til yo muh'fuckin mouth hurts  
Go tell your friends 'bout the suite up at the W  
About the view and all the freaky shit I done to you

Now when she see me when you're not around  
She be in my face, tryin to see what I'm about  
Here take my number, maybe you can take me out  
Take you somewhere and put some dick up in your  
mouth  
I remember when you bitches wasn't so nice  
Before the rings and the watches got a coat of ice  
Same nigga, different day, we forever say  
Money over bitches, U.T.P., Eight way

[Chorus] - 2X

[Skip]

Oh I like the way you move it to the right girl  
No I like the way you shake it to the left girl  
No I like it when you bend it, when you step girl  
Now, touch your toes while you hold your breath girl!  
And I ain't come here to ruin your night  
I'm tryin to put somethin new in your life!  
Just by doin you right, we can go somewhere for two if  
you like  
Use the stars and the moon for the light, cause you  
movin it right  
Why? I'm really tryin to do you tonight (right now)  
If you dyke, bring your crew if you like!  
If any um booty is like, your booty is like  
Call your whole crew booty delight, we make it "Nolia  
Clap"  
Don't hold it back, touch the flo' with that  
I got a heart attack, your booty causin cataract  
I can't even stay on it, look I keep on fallin back!  
My momma always told me Skip don't ever fall for that!

[Chorus] - 2X
