[sung]

You make me smiiiiiiile with my heart, ohh

[Chorus: Kanye West]

Why everything that's 'sposed to be bad, make me feel  
so good?

Everything they told me not to is exactly what I would  
Man I tried to stop man, I tried the best I could, but  
(You make me smiiiiiiile)

[Kanye West]

What's your addiction? Is it money? Is it girls? Is it  
weed?

I've been afflicted, by not one, not two, but all three  
She's got the same thing, about me, but more, about  
us

And she's comin over, so I guess, that means, I'm her  
drugs

Just let me peak now, I mean dang, I'm so, curious  
She's got a lover, so the lies, and the lust, is a rush  
Time's of the essence, I need you, to be spon-taneous  
Roll up the doja, Henny and C-Ca-Coca-Cola  
Then I'm c-comin over, cause it's n-never over

[Chorus]

[Kanye West]

I see the emotion, in your eyes, that you tried, not to  
show

We get the closest, when you high, or you drunk, or you  
blowed

So I pour the potion, so we can both, get high, as we  
can go

Then I'll get the lotion, it do somethin to me, when your  
thighs, is exposed

There's no turnin back now, I mean I, don't mean, to  
impose

Not now but right now, I need you, to undress, and then  
pose

I'm into that now, catch a vibe, when the doors, get  
closed  
Roll up the doja, Henny and C-Ca-Coca-Cola  
And I keep com-comin over, cause it's n-never over,  
uhh

[Chorus]

[Strings]

Why everything that's 'sposed to be bad, make me feel  
so good?  
Everything they told me not to is exactly what I would  
Man I tried to stop man, I tried the best I could, but  
(You make me smiiiiiiile)

(You make me smiiiiiiile with my heart, ohh)

[Chorus]

[Kanye West]

I, just wanted to ask you  
Just wanted to umm, let me how would I put this umm  
Let's say, of your friends  
Remember the one, huh?  
You said, if you ever she would be the one  
Okay, okay, okay, well, I was thinkin  
Hypothetically, I mean don't take this seriously  
Don't take me, I mean just, umm, not credibly  
I, feel it incredibly  
I mean let's let it be, I, just let it be  
I mean you her and me, I mean you her and me  
Baby? Baby? Baby?  
Baby? Baby?  
You know I was just kiddin  
Unless you gon' do it  
(You make me smiiiiiiile)
