[VERSE 1:]

Every time I say fuck you, I mean I luv you
Every time I want to rub you, it's cause baby I fucking
luv you
Every time we bumpin' heads, need a little medicine
A smoke for the social, music while she gives me head
Fo' every time I'm deep inside remember what I wrote
you
In the Hurst my bad, I know I really worked you
Your mom's now the Feds, don't want me to
approach you
So hard I know you sad, but every day I still hold you
So chill! I will hold you, I'm still on you
Every time I see your pretty smile I jump on you
Kiss n' bite dem juicy lips, don't need a room just
need a whip
No problem if you bite yo lip, I push it hard, you won't
forget
I'm still on you, Yeah! I still miss you
Risk 24 months, just to come n' kiss you
I know it aint the same gurl but you don't need a tissue
Life is sweet pain gurl, but love's the real issue

[CHORUS:]

Since the first time we walked together
You got a strong hold of my heart
E-ve-ry-time feels like November (Chyeah, Chyeah!)
YeE-e-ah...
Cause' you're my baby, my shawty
My only, can you feel me
There goes last year, still my bugaboo
My blue lagoon, can you feel me

[VERSE 2:]

I remember yesterday, luv was in the recipe
No long afford to front you, I had to scope your resume
Daddy wasn't there, mommy hardly even cared
Like Mickey I'll be there, thru these bad times, I got you
This is suicide slowly die without you
I close my eyes and pray to God to watch you
That's why I get so vexed that I even want to fight you

Talk so much ish, but I love to dislike you
Learned to be insightful, mind of a disciple
Gud things aint easy, neva' mind I got the right tool
Swag of a rude boy, gentleman wit attitude
I can hold this bitch down, she can hold me down too
Tropical waterfalls, jet skis in Monaco
Your body's like a wonderland, you make me shiver
thunderbolts
Harbourfront summer boats, you know this shit's
grizzly
Touring coast to coast knowing that you'll neva leave
me

[CHORUS:]

Since the first time we walked together
You got a strong hold of my heart
E-ve-ry-time feels like November (Chyeah, Chyeah!)
YeE-e-ah...
Cause' you're my baby, my shawty
My only, can you feel me
There goes last year, still my bugaboo
My blue lagoon, can you feel me

[VERSE 3:]

Every time you wanna fight, why you callin' every
night
I know you luv to argue, just so I could make it right
Rendezvous wit Malibu, so hard stayin' mad at you
Callin' in the morning time, just to say I love you boo

Drivin' round in circles, this aint no commercial
Real hard livin', rather walk away then hurt you
That's why I still deserve you, you know I'll come back
I won't desert u, even wrote it on a track

Every time I walk away, you show no slack
Every time I'm talkin' shit, you always get me back
Every time you smile baby, take me way back
To November when I first kissed my baby like that

Every time I walk away, you show no slack
Every time I'm talkin' shit, you always get me back, Hu!
Every time u smile baby, take me way back
To November when I first kissed my bitch like that
Woo!

[CHORUS:]

Since the first time we walked together
You got a strong hold of my heart
E-ve-ry-time feels like November (Chyeah, Chyeah!)
YeE-e-ah...

Cause' you're my baby, my shawty
My only, can you feel me
There goes last year, still my bugaboo
My blue lagoon, can you feel me
