I'm so anxious just to get out
Forget the cars I need to walk
Feel the grass under our sneakers
And save the doubts until it's dark

The water's not safe to go in today
Hold the joy but I won't be afraid
So little red hand in the clouds today
Laughing while we're covered by the rain

Ahhh ahhh, ahhh ahhh ahhh, ahhh ahhh, ahhh ahhh

You never as sad as you're acting
And my attention's never far
Let the ocean kiss your ankles
And save the smiles until it's dark
For water's not safe to go in today
Hold the joy but I won't be afraid
So little red hand in the clouds today
Laughing while we're covered by the rain

Ahhh ahhh, ahhh ahhh ahhh, ahhh ahhh, ahhh ahhh

How to clear the end my head today
How to clear the end my head today
Heard the crashing waves ringing clearly in my head
today
Heard the waves ringing in my head today
