On gentle ground
I'm waiting for you
In drops of dew
I wished that i were you
With heavy hands
I reached out for you
My skin soaking wet
My eyes searched for you

(chorus)
Since you've lost your way,
You've let our love fall apart
Nothing's left here but you
No, don't remind me
Now that we've lost our way
The rest can all fall apart
All i see here is you
No, don't remind me

With sharpened tongue
I cried out for you
And must I refrain
Now that I need you
The autumn wind feels
As if it were you
And swayed through the fields
Where I once held you

(chorus)
It seems you lost your way
You've let it all fall apart
Nothing's left here but you
All you do is remind me
Now that we've lost out way
The rest can all fall apart
All I see here is you
All it does is remind me

(male-female vocal)
Whistle through your window
We act the same as you
Whistle through your window

We act the same as you
