[Sean Garrett]

Ladies and gentlemen.. Kelly's back

1 - I told ya'll I was gonna bump like this  
Ya'll didn't think that I could bump like this  
Said I told ya'll I was gonna bump like this  
Turn around, then I make it jump like this

(Ladies!) You wanna keep that boy, then make it jump  
like this

Ya'll didn't think that I could make it bump like this  
See I told ya'll, ya'll was gonna jump like this  
How you not gon' know it when it hit like this

[Kelly]

Ladies, drama, leave it home  
If he ain't got it right by now then scratch him off  
They just called me, said it's about 20 strong  
They standin' at the door, they wanna take us on

The ring - Let it go 'bout three months ago  
The pain ain't stressin' me no more  
The girl that they used to know don' changed  
Now they sayin' this before they mention my name

Repeat 1

[Kelly]

Standin' near me like six, six-four  
Came up real slow  
Put a good game on me  
Told him "Partner don't get too close or come too bold"  
Cause the quick ain't for me

Got my girls all here, no enemies cause it's family  
please  
All of your personal info  
I ain't thinkin' 'bout love  
I'm just tryin' to get it up  
Pop a bottle, talk a lot of bullshit  
And let's, let's go

Repeat 1

[Kelly]

Tonight I ain't feelin' no stress  
To my girls that's lookin' nervous  
Won't you go on and show it off for us  
(Ladies go on and throw your hands up)

And.. if he's all in your head  
Just forget all the things that he said  
Girl this is yours, do whatever you want to  
(Ladies go on and throw your hands up)

[Eve]

Hear these words out my mouth now, tell you how it's  
goin' down  
Kelly, E-V-E, we comin' through and got 'em bowin'  
down  
Ladies can you feel it? It's an anthem, you can bounce  
around  
Give you just a second to take your breath, bring it  
back now  
Dudes get excited, seein' what they like  
Hopin' you the one you choose, hope they get invited  
Late night rendezvous is all right  
But we lovin' how the club vibratin', it's enticing  
Let the beat knock, trust me, we ain't gon' stop  
Head 'til the lights up, watch us take over the spot  
Few mad looks from them chicks you know  
And from them dudes who be jealous of a chick wit'  
dough  
Pop another bottle for them, keep my life movin'  
No time for the drama, watch me blow through them  
Right now I sound confident, I'm supposed to though  
We do it big, how we live, Kelly told you so, come on
