All the world's gonna feel my love;

on a disco light.

As you go out on the street at night
the whole world just comes to life.

Oh, yeah!

Moving through the air
and you have no cares.

The whole world would fall apart;
but everybody likes you in the dark.

Oh, yeah!

Moving in the colored lights and it feels so right.

All the world's gonna fall in line.
Everybody else will come in time.

Oh, yeah!

Like a feeling through the floor,
but it's so much more.

Oh, yeah!

Like you're flying through the night
on a disco light.

As you go out on the street at night
the whole world just comes to life.

Oh, yeah!

Moving through the air
and you have no cares.

All the world's gonna feel my love;
everybody's lost in disco time.

Oh, yeah!

Like you're flying through the night
on a disco light.

Moving through the air
and you have no cares.

The whole world would fall apart;
but everybody likes you in the dark.
Oh, yeah!
