chorus]

it dont make any difference to me
what the world thinks about us baby
cause in my heart i will always believe
that we were ment for eachother
love aint got no color
it dont make any difference to me

[verse 1]

what they see
all you gotta do is look at me
three generations and my family
you see
people treat you different when your inbetween
he was black and she was white
you know that most people thought that it wasn't right
i could still remember what she used to say

[chorus]

it dont make any difference to me
what the world thinks about us baby
cuz in my heart i will always believe
that we were ment for eachother
love aint got no color
it dont make any difference to me

[verse 2]

everytime i look at you
deeeep in your brown eyes i see
what your goin through
they treat different
when your inbetween
i could feel it everyday
the whispers, the words that they
think i dont ever say

before you let a tear fall
remember girl

[chorus]

it dont make any difference to me

what the world thinks about us baby
cuz in my heart i will always believe
that we were ment for eachother
love aing got no color
it dont make any difference to me
what they see
0hh

[verse 3]
maybe, people might change
but i really dont think they will
i know you know it
and baby, we could run away
but then we'll be runnnig away from failure
do you know it, do you know, do you know it
and baby, im telling you now
dont you ever look down
dont you ever look down again
cause remember

[chorus]
it dont make any difference to me
what the world thinks about us baby
cuz in my heart i will always believe
that we were ment for eachother
love aing got no color
it dont make any difference to me
(repeat twice)

what they see
