(We are the music makers
And we are the dreamers of dreams)

I tried to tell you
Our story to far
How we gave up everything that wouldn't last a while

This is the second chapter
Of this roller coaster ride
Our hearts collide
At the thought of giving up what we believe in

So
Welcome
To the place where I call home
Where these scrapes and scars are all a distant
memory
(Na na na)
This is
The place where we went wrong
But it's over so welcome to
My fairytale ending
This is no longer pretending

We'll never forget the things that we've seen
All the words we've sung to all of our hopes and
dreams

This is my favourite chapter
Of this fairytale so far
We're only gonna take it further
'Cause we're never giving up what we believe in

So
Welcome
To the place where I call home
Where these scrapes and scars are all a distant
memory
(Na na na)
This is
The place where we went wrong

But it's over so welcome to
My fairytale ending
This is no longer pretending

(We're never giving up this world)

You brought me to my knees
But now I'm climbing the ladder to the top of the world
And
You said I was a loser
But only losers get a happily ever after

So
Welcome
To the place where I call home
Where these scrapes and scars are all a distant
memory
(Na na na)
This is
The place where we went wrong
But it's over so welcome to
My fairytale ending
This is no longer pretending

And they all lived happily ever after
