Some people say that love does not last long.
I say those people are completely wrong.
With every single day I love you more.
Each day our love grows stronger than before.
I always pray for you: with all my heart I pray.
I pray your sunny smile will never fade away.
With all my soul, with all my utter tenderness
I ask the Lord to fill your life with happiness!

Chorus:

I still kiss your lips and hair while you are asleep.
My eternal love for you is strong and deep.
Regardless of the hard time that we have been through
I thank God for every single day
Iâ€™ thank God for every single day with you!

Whenever it seems like everything goes wrong,
Remember, our love will keep us strong.
No matter where you go and what you do.
Iâ€™ never leave your side: Iâ€™ stand by you
Weâ€™ stay together and weâ€™ never go astray,
Weâ€™ weather any storm: weâ€™ always find a
way.
No one can take away what's given from above.
Time has no power over everlasting love!
